

# Udacity Technology Scholarship Program

## Phase 1 Challenge Course

 Start in December 2021  15,000 seats

 2 months  
2–4 hours/week  Challenge Badge

## Phase 2 Nanodegree Program

 Start in March 2022  1,600 seats

 6 months  
5–10 hours/week  Nanodegree certificate

 **Cloud Track**  
(Prerequisites required)

Designing Infrastructure and Managing Migration

 **Data Track**  
(No prerequisites)

Introduction to Data

 **Artificial Intelligence Track**  
(Prerequisites required)

Introduction to Machine Learning:  
Supervised Learning

**Azure Cloud Architect**

Learn to translate business requirements into technical specifications for reliable, scalable, and secure cloud infrastructure using Microsoft Azure.

**Business Analytics**

Learn data analysis skills and tools. Get to know how to use Excel, SQL, and Tableau to manipulate, analyze, and visualize data with the end goal of making better, data-informed decisions.

**Intro to Machine Learning with Tensor Flow**

Learn machine learning techniques such as data transformation and algorithms that can find patterns in data and apply machine learning algorithms to self-designed tasks.

## Apply now!

**Who?**

All Bertelsmann employees, as well as the external general public, who want to expand their technology capabilities.

**When?**

October 5 – November 30, 2021

**Where?**
